Northeast UAS Airspace Integration Research Alliance

The Northeast UAS Airspace Integration Research Alliance (NUAIR), along with 200+ partners, works to advance unmanned aircraft systems (UAS) research and to accelerate UAS industry economic development in the region. NUAIR manages operations at one of seven federally-designated UAS test sites in the United States, and is at the forefront of public policy development, commercialization, and safe integration of UAS into the National Airspace System (NAS).

Ready to Exceed Expectations!

- Manage the unprecedented financial investment from New York State for Project U-SAFE focused on Beyond Visual Line of Sight (BVLOS) operations to include the world's first 50-mile Unmanned Traffic Management (UTM) corridor and a National UAS Standardized Testing and Rating (NUSTAR) initiative
- Leading partner in UAS Central, the ecosystem in New York State which includes unmatched public-private partnerships, resources for start-ups and businesses, innovation and testing, private industry, education partners and policy development
- Unmatched UAS testing capability with access to diverse airspace, renovated facilities, and experienced aviation personnel
- BVLOS infrastructure to support any size UAS platform and system

“During the past five years NUAIR has worked to ensure our capabilities keep pace and lead the always evolving UAS industry. My vision is to create an unsurpassed ‘innovation friendly’ environment for UAS research, testing and operation. With all of our state economic and technical support, I think we are well positioned to accelerate the UAS industry and further establish the region as a national leader. Central to this effort is the establishment of the National UAS Standardized Testing and Rating (NUSTAR) initiative and our Unmanned Traffic Management (UTM) corridor. These projects that are currently underway, along with recent strategic personnel hires, are important and progressive steps towards creating a robust UAS ecosystem.”

– Major General Marke F. “Hoot” Gibson (ret)
Chief Executive Officer, NUAIR Alliance
